NEUROLINGO's dictionaries and libraries used in the language tools by iSquare (formerly Rainbow) for Mac OS X

Thu, 21/01/2010 - 15:37 — webmaster

In a few days, the Language Tools (Modern Greek Spell checker and Modern Greek Thesaurus of synonyms and antonyms) by iSquare will be released on the market and integrated with the Apple computers. The language tools for Mac OS X (Cocoa applications) developed by iSquare are based on the corresponding language resources (dictionaries and engines) created by NEUROLINGO for spelling correction and proofing.

iSquare (formerly Rainbow SA and member of the Group Info-Quest) is the official distributor of the Apple products in Greece and Cyprus. The company operates in the IT and telecommunications concerning the distribution of high technology and the design, implementation and provision of integrated technology solutions and services.
